

BIO-GEN Foam for Drains

ONE STEP - EASY TO USE FOAMING DRAIN MAINTAINER

TECHNICAL DATA

GENERAL DESCRIPTION

BIO-GEN Foam for Drains
*is a totally new and unique concept
in drain maintenance.*

BIO-GEN FOAM for DRAINS is a bio-energized foaming drain cleaner combining the power of concentrated natural non-pathogenic bacteria in formula with grease cutters and odour counteracting "boosters". Provides positive control of odour and the elimination of drain fly and insect sources. Maintains drains and lines in a clean and free flowing condition without the use of harsh chemicals or hazardous solvents. Does not harm plumbing fixtures, drains, traps, sewers or septic systems.

AREAS OF APPLICATION

Safely and efficiently breaks down organics in all types of sink, trough and floor drains, garbage disposals, bar and fountain drains, ice cream dipper well drains, ice machine drains as well as drip trays of all types. Excellent for other areas where organic buildups occur such as under counters, around conveyors, walk-in coolers and behind baseboards or under and behind appliances.

SPECIAL FEATURES

Quick, Simple and Effective To Use - single step product reduces drain clogging caused by fats, oils and greases. Easy and quick to use - no mixing, pouring or measuring - simply insert hose and press actuator.

Safe To Use, Handle And Store - non-fuming, non-flammable, not harmful to any surface not harmed by water alone. Contains no harsh chemicals or hazardous solvents. Eliminates potential product contamination and requires limited storage space. Pleasant, quick and easy use encourages regular staff application.

Versatile - great for reduction of organics and odours in all types of drains while also highly effective for other difficult areas where organic buildups occur.

Eliminates Source Of Drain Flies - eliminates organics and odours which harbour and attract drainline insects.

Increased Pest Control Efficiency - designed for pest control operators - helps reduce time through the ability to insert the dispensing tube beyond "P" trap.

Economical - one single step product in aerosol form which reduces staff training, documentation, storage requirements and shortens treatment time all of which adds to reduced overall labour and treatment costs. One can produces gallons of end use foam.

USE DIRECTIONS

SHAKE THOROUGHLY PRIOR TO USE. Insert hose into drain. Press down on the button to dispense foam. Drains must be undisturbed for 30 minutes after treatment (increased dwell time allows improved performance). Once the foam has dissipated, the foam reverts back to a liquid that moves further down the drain line providing maximum organic penetration and subsequent system delivery reach.

PHYSICAL PROPERTIES - AEROSOL

BIO-GEN Foam for Drains is a blend of concentrated non-pathogenic bacteria, odour counteractants and surfactants.

Type	Foaming Drain Maintainer
Appearance	White Foam
Odour	Fresh Spring
Flammability (per aerosol regs) ..	Non-Flammable
pH (concentrate).....	9.8 - 11.8
Specific Gravity (concentrate)	1.0
Solubility in Water	100%
Toxicity (concentrate)	Seious Eye Damage

APPROVALS/CERTIFICATIONS

Canadian Food Inspection Agency

Enviro-Gard Product

**FOR USE IN INDUSTRIAL,
INSTITUTIONAL, COMMERCIAL, MARINE and
FOOD PROCESSING ENVIRONMENTS**

PACKAGING

Case (12 x 510g Cans c/w dispensing tubes)

DM2302
